VISION 2030

Inclusive and sustainable development towards shared prosperity. The Vision conceives development as a multi-dimensional process with an integrated approach to economic, social and environmental goals, and thereby achieving sustained high economic growth to promote shared prosperity.

Executive Summary

India being a signatory to the resolution of the 2030 Agenda for Sustainable Development, which adopts 17 Sustainable Development Goals (SDGs), it is the obligation on the part of the State Government to adopt these 17 SDGs for its Vision Plan. This requires a more inclusive framework that will take the State forward on a sustainable and faster and inclusive growth platform, beyond managing the conventional poverty and vulnerability norms, as outlined in the Millennium Development Goals (MDGs).

The Government is keen to ensure that the implementation of SDGs in the State is judiciously prioritized and adopted in accordance with local challenges, capacities and resources available.

The State Government aims to align SDG with its flagship programme, existing Central Sponsored Schemes and programme with the SDGs targets for achieving the Sustainable Development Goals. This report is prepared with the aim of visualizing the State baseline, targets and key Strategy to achieve SDGs by 2030 in the State.

The baseline information along with the targets and key strategies form a part of the vision documents. As a first step towards achieving the Vision 2030, a baseline scenario of the parameters relevant to the SDGs is consolidated. Inputs from all line departments are collaborated. Nodal Officer has been nominated in all line Departments to support effective implementation and better coordination among line Departments in the State Government and for effective monitoring in their respective areas and mapping of resources.

The Mizoram Vision 2030 comprises of SDGs goals and targets which the State aims to achieve by implementing various programme and strategies for each sectors which are explained in details. It also comprises of the basic Monitoring Framework for better conditions and timely support structure for successful implementation. It consists of the Budget alignment with SDGs implementation and monitoring template with the base case scenario and track progress in form of dashboard.

1. INTRODUCTION

By 2030, Mizoram aims to achieve SDGs and ensure that every family in the State has the opportunity to live a healthy and secure life with dignity and self-respect. While targeting economic growth, infrastructure development and industrialization, Mizoram remains committed to protecting the environment.

Improving the standard of living of the people would require sustained increases in per capita income levels and its fair distribution amongst all sections. By 2030, people of Mizoram should have living standards comparable to people in the rest of the country. Mizoram is a State whose region is rich in natural resources, covered with dense forest, with large and small river systems nesting the land and is a treasure house of flora and fauna.

To achieve the target, there are many challenges the State would have to face. Further, the development strategy for the people in the State will have to be participatory and should be calibrated in their own setting. The successful transformation of Public and Private Investments into developmental outcomes requires a variety of strategic initiatives.

The State Government is actively taking initiative in obtaining accurate and reliable data, keeping record of infrastructure, amenities, education, health etc under, “Strengthening of Data & Statistics: Baseline Survey for Sustainable Goals of State Flagship Programme”.

Three layers of Monitoring Committees are constituted on this:

- State Level under the Chairmanship of Secretary, Planning and Programme Implementation Department
- District level under the Deputy Commissioner
- Village/ Local Level Monitoring Committee under President or Chairman of the Village Council or Local Council

The Government of Mizoram has formulated ‘State Flagship Programme–Comprehensive Growth Strategy for Mizoram’ as a framework for economic policy and the strategic driving force of the State’s economy. The Mizoram Vision 2030 will be anchored in the State flagship programme framework.

The State flagship programme aims at providing bold, practical and effective strategies to push the economy to a high growth path by enhancing productivity, creating employment opportunities, improving public finances, promoting business environment and enhancing public service delivery in a sustainable manner. It also lays out a dynamic vision for how we can collectively achieve a more developed, democratic, cohesive and inclusive economy and society over the medium term, in the context of sustained growth.

The strategy sets out critical policy interventions for employment generation, empowerment of weaker sections, and inclusive growth and identifies where viable changes in the structure and character of production can generate a more inclusive and robust economy over the medium to long run. The new policy recognizes that achieving transformation of economic conditions requires hard choices and a shared determination of the people of Mizoram. The new policy combines growth strategies across various sectors into a coherent package for development, decent work and inclusive growth. They bring together the priorities that constitute the basic economic focus to forge ahead to promote a more inclusive and stronger economy.

The policy has been formulated keeping in view the paradigm shift in fiscal federalism under Fourteenth Finance Commission, imperative economic and foreign strategic action plan including Act East Policy and the evolving economic environment. It is recognized that the limited resources available have to be optimally and judiciously allocated to various sectors of the economy, so as to bring maximum benefit to the people of Mizoram. The policy bring about a sea change in the way priorities are placed in matters of economic development and governance so as to ensure that the State fully capitalize on the opportunities placed below it with the end goal being to attain a robust and self sustaining economy in the long run.

The Government is optimistic of our future because we have the most literate people, with very high percentage of working population (more than 62%), who are ever eager to make Mizoram one of the most developed States in India.

The State flagship programme recognizes that achieving transformation of economic conditions requires hard choices and a shared determination of the people of Mizoram. The new policy combines growth strategies across various sectors into a coherent package for development, decent work and inclusive growth. They bring together the priorities that constitute the basic economic focus to forge ahead to promote a more inclusive and stronger economy.

2. THE UN SUSTAINABLE DEVELOPMENT GOALS

The United Nations General Assembly has adopted 17 Sustainable Development Goals (SDGs), with 169 targets and 304 indicators, on 25th September, 2015 under the official agenda “Transforming our world: the 2030 Agenda for Sustainable Development”. India being a signatory to the resolution, it is the obligation on the part of the State Government to adopt these 17 SDGs for its Vision Plan.

The SDGs cover a broad range of social and economic development issues. These include poverty, hunger, health, education, climate change, gender equality, water, sanitation, energy, urbanization, environment and social justice. The goals were developed to replace the Millennium Development Goals (MDGs) which ended in 2015. Unlike the MDGs, the SDG framework does not distinguish between "developed" and "developing" nations. Instead, the goals apply to all countries.

These 17 SDGs are as under:-

- 1) End poverty in all its forms everywhere.
- 2) End hunger, achieve food security and improved nutrition, and promote sustainable agriculture.
- 3) Ensure healthy lives and promote well-being for all at all ages.
- 4) Ensure inclusive and equitable quality education and promote life-long learning opportunities for all.
- 5) Achieve gender equality and empower all women and girls.
- 6) Ensure availability and sustainable management of water and sanitation for all.
- 7) Ensure access to affordable, reliable, sustainable, and modern energy for all.
- 8) Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.
- 9) Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation.
- 10) Reduce inequality within and among countries.
- 11) Make cities and human settlements inclusive, safe, resilient and sustainable.
- 12) Ensure sustainable consumption and production patterns.
- 13) Take urgent action to combat climate change and its impacts.
- 14) Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
- 15) Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat deforestation, and halt and reverse land degradation and halt biodiversity loss.
- 16) Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
- 17) Strengthen the means of implementation and revitalize the global partnership for sustainable development.

India has played an important role in shaping the Sustainable Development Goals (SDGs) and the country's national development goals are mirrored in the SDGs. As such, India has been effectively committed to achieving the SDGs even before they were fully crystallized. As one of the forty countries that have volunteered to take part in the Voluntary National Reviews (VNRs) at the High-Level Political Forum (HLPF) 2017, India appreciates the focus on 'Eradicating poverty and promoting prosperity in a changing world'. India's statistical system and institutions gather data and report on defined parameters in various sectors. National SDG indicators are being currently constructed to better capture the context of India and its needs. Along with the development of the national SDG indicators, the statistical system is also geared to measure achievements at sub-national levels.

3. IMPLEMENTATION FRAMEWORK OF SDGs IN MIZORAM

In view of India committing to the 2030 Agenda, Mizoram has committed itself to the attainment of the SDGs in the State. The State aims to align its flagship programme and existing schemes and programmes with the SDGs targets in the Vision 2030 document with an action plan for achieving the Sustainable Development Goals.

As a first step towards achieving the Vision, baseline scenarios (current status) of the parameters relevant to the SDGs are being consolidated. Further, all line departments of the State Government have been instructed to immediately put in place suitable internal support system for implementation of SDGs, including nomination of Nodal Officer to support effective implementation & coordination within and with other line departments, monitoring in their respective areas, mapping of resources including State flagship programme, CSS, NEC, NLCPR, NABARD, State Own Programme, etc. and any other corrective action. An Action Plan to achieve SDGs are being work out for implementation in the State.

A High Level Monitoring Committee has been set up under the Chairmanship of the Chief Secretary, Government of Mizoram and Secretary, Planning and Programme Implementation Department as to review progress and to suggest corrective measures. The committee meets regularly to review and monitor the progress of implementation of SDGs by various Departments in the State. Also, Technical Committee on Sustainable Development Goals is also formed under the Chairmanship of Director, Economics & Statistics Department to identify the achievable indicators clearly specifying the baseline data and targets. The State Government has identified indicators for the outlined targets to be achieved in 2030. Baseline survey has been done for selected indicators and timeline for achieving targets for each indicators and action plan will be taken accordingly.

Planning & Programme Implementation Department is the nodal department for SDG to whom action taken report will be submitted on a quarterly basis for examination by the High Level Monitoring Committee.

A dedicated SDGs Cell has been established in the Research & Development Branch of Planning & Programme Implementation Department.

4. LANDSCAPE ANALYSIS OF SDGs IMPLEMENTATION IN MIZORAM

SDG 1 - No Poverty	
1	Departments with a concentrated focus on SDG 1 include Rural Development Department; Public Health Engineering Department; Urban Development & Poverty Alleviation Department; Social Welfare Department, and Health & Family Welfare Department.
2	Baseline survey of Below Poverty Line (BPL) has been conducted in community participation basis by Directorate of Economics & Statistics.

3	Baseline Survey result will be used as base case, and targets and goals will be indicated accordingly.
SDG 2 - Zero Hunger	
1	Departments with a concentrated focus on SDG 2 include Food, Civil Supplies, and Consumer Affairs Department (FCS&CA), Agriculture Department, Horticulture Department, Animal Husbandry & Vety Department, Irrigation & Water Resources Department, Land Resources, Soil & Water Conservation Department, and Public Health Engineering Department.
2	These Departments focusing on Hunger, will aligned their schemes and projects to SDG targets related to food consumption to end hunger and ensure access by all people to safe, nutritious and sufficient food all year round; and end all forms of Malnutrition.
3	These Departments will have their schemes line up with SDG 2 targets related to food production, namely, increasing agricultural productivity; and sustainable food Production systems and resilient agricultural practices.
SDG 3 - Good health and well being	
1	Departments with a concentrated focus on SDG 3 include Health & Family Welfare Department, Public Health Engineering Department, Social Welfare Department, and Environment, Forests and Climate Change Department.
2	These departments to focus on reducing maternal mortality and neonatal mortality Ending epidemics and communicable diseases; premature mortality from non-communicable diseases.
3	These departments will address universal access to sexual and reproductive health-care services; access to medicine and health insurance; and prevention and treatment of substance abuse, reduction in number of deaths and illnesses from hazardous Chemicals and air, water and soil pollution and contamination.
SDG 4 - Quality Education	
1	Departments with a concentrated focus on SDG 4 include School Education Department, Higher & Technical Education Department, Health & Family Welfare Department, Commerce & Industry Department, and Labour, Employment, Skills Development and Entrepreneurship Department.
2	This Department will provide quality education within the Framework of National Skills Qualification Framework.
3	Implementation will be within the Framework of Mizoram Skills and Entrepreneurship Development Policy.
SDG 5 - Gender Equality	
1	Departments whose schemes are aligned with all targets of SDG 5 (Gender Equality) are Social Welfare Department; Health & Family Welfare Department, DP&AR Department, and Labour, Employment, Skills Development and Entrepreneurship Department.

2	SDG 5 targets relates to end all forms of discrimination (target 5.1); eliminate all forms of violence, trafficking and exploitation (target 5.2); eliminate early and forced marriage (target 5.3); and ensure universal access to sexual and reproductive health (target 5.6).
3	Gender Equality also focus towards recognition and value of unpaid care and domestic work by social protection and shared responsibility (target 5.4); as well as equal opportunities for leadership to women at all levels of decision-making (target 5.5).
SDG 6 - Clean Water and Sanitation	
1	Public Health Engineering Department, Urban Development & Poverty Alleviation and Environment, Forests and Climate Change Department have schemes focused on a majority of the SDG targets on adequate and equitable sanitation and hygiene for all and end open defecation (target 6.1); increase water-use efficiency across all sectors (target 6.4); integrated water resources management and protect (target 6.5) and restore water-related ecosystems (target 6.6).
3	Public Health Engineering Department will address the target of universal and equitable access to safe and affordable drinking water for all (target 6.1).
4	These departments will also focused towards improving water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, treating wastewater and substantially increasing recycling and safe reuse of water (target 6.3).
SDG 7 - Affordable and Clean Energy	
1	Power & Electricity Department will be the main Department with a concentrated focus on SDG 7.
2	The Department will have a focus on universal access to affordable, reliable and modern energy services (target 7.1), and promoting renewable energy (target 7.2).
3	Target 7.2 aims to increase substantially the share of renewable energy in the global energy mix is a national level indicator and hence is not directly addressed by the State Government schemes.
SDG 8 - Decent Work and Economic Growth	
1	More or less almost all Departments will focus on SDG 8 that cover all elements of Decent work and Economic Growth.
2	All Departments focus on increasing per capita economic growth and economic productivity (targets 8.1 and 8.2); support productive activities, decent job creation, entrepreneurship, creativity and innovation, and enable micro-, small- and medium-sized enterprises (target 8.3); reduce unemployment and ensure employment for all and decent work (target 8.5).
3	All Department will also address the need to eradicate forced labour, child labour, and end human trafficking and promote safe and secure working environments (target 8.7); and expand access to banking, insurance and financial services for all (target 8.10).

5	Tourism Department will promote sustainable tourism to create jobs (target 8.9).
6	There is also a focus on improving global resource efficiency in consumption and production and disassociating economic growth from environmental degradation (target 8.4).
SDG 9 - Industry, Innovation and Infrastructure	
1	Commerce & Industry Department, Information & Communication Technology Department and Science & Technology Department holistically cover all the targets of SDG 9.
2	PWD, P&E, PHED focuses align with SDG 9 targets for developing infrastructure for economic development and human well-being, with a focus on affordable and equitable access for all (target 9.1).
3	Focuses to address inclusive and sustainable industrialization (target 9.2); along with increasing the access of small-scale industrial and other enterprises to finance, and their integration into value chains and markets (target 9.3).
4	Upgrading industrial infrastructure for sustainability and increased resource use efficiency (target 9.4).
5	Science and Technology to encourage innovation and research and development (target 9.5).
SDG 10 – Reduced Inequalities	
1	Almost all the Departments to align with the first three targets including income growth of the bottom 40 per cent of the population at a rate higher than the national average (target 10.1); promote the social, economic and political inclusion of all (target 10.2); and laws, policies, practices to ensure equal opportunity and reduce inequalities of outcome (target 10.3).
2	Focuses relating to fiscal, wage and social protection policies, to progressively achieve greater equality (target 10.4).
3	Focus on migration policies to facilitate orderly, safe, regular and responsible migration and mobility of people (target 10.7).
4	Targets 10.5 and 10.6 are global targets and hence not linked to state level interventions.
SDG 11 - Sustainable Cities and Communities	
1	Urban Development & Poverty Alleviation and Rural Development Departments have schemes that relate to all the SDG 11 targets and exclusively cater to target 11.1 - access for all adequate, safe and affordable housing and basic services; and target 11.7 universal accesses to safe green public spaces.
2	PWD, UD&PA, Transport Departments have schemes designed for providing safe, affordable, accessible and sustainable transport systems for all (target 11.2).

3	Focus towards inclusive and sustainable urbanization and participatory planning (target 11.3); along with waste management and decreasing pollution (target 11.6). They also have schemes to safeguard cultural and natural heritage (target 11.4).
4	Target 11.5 (reduce impact of disasters on economic activity with focus on protecting the poor and vulnerable and Target 11.7 on universal access to safe green public spaces is the exclusive focus of Environment, Forests, and Climate Change Department.
SDG 12 - Responsible Consumption and Production	
1	Food, Civil Supplies & Consumer Affairs Department has a holistic approach towards addressing SDG 12 targets related to Responsible Consumption and Production and sustainable public procurement practices.
2	Environment, Forests, and Climate Change Department focuses relate to SDG targets 11.2 (sustainable management of natural resources), 11.4 (environmentally sound management of chemicals and all wastes) and 11.5 (reduce waste generation through prevention, reduction, recycling and reuse).
3	To halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains (target 11.3) will be responsibility of Tourism Department.
4	Target 12.8 (information and awareness of people for sustainability) is to be addressed across the board by all the departments.
SDG 13 - Climate Action	
1	Environment, Forests, and Climate Change Department have a holistic approach towards addressing SDG 13 targets towards building resilience and adaptation to climate-related hazards and natural disasters (target 13.1); striving to integrate climate measures into policies, strategies and planning (target 13.2); and are taking measures towards awareness raising and building capacity on climate change mitigation, adaptation and impact reduction (target 13.3).
SDG 14 - Life Below Water	
1	SDG 14 targets are focused towards marine and coastal systems. Mizoram being a landlocked state most of the targets do not apply. A target to regulate fish harvesting and end overfishing both inland and marine (14.4) is there. However, the present set of schemes does not address this gap.

SDG 15 - Life on Land	
1	All most all Departments mandates are aligned directly or indirectly with SDG 15, to ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems (target 15.1), sustainable management of all types of forests, halting deforestation (target 15.2); combating desertification, restoration of degraded land and soil (target 15.3); conservation of mountain ecosystems and their biodiversity (target 15.4); reducing degradation of natural habitats, loss of biodiversity and prevent the extinction of threatened species (target 15.5); target 15.6 on genetic resource sharing; end poaching and trafficking of protected species of flora and fauna (target 15.7) and protection of land and water ecosystem (target 15.8) and integrate ecosystem and biodiversity values into planning (target 15.9).
SDG 16 - Peace, Justice and Strong Institutions	
1	Vigilance Department, Law & Judicial Department, Home Department and Social Welfare Department will focus on SDG 16. Of these majority of the schemes relate to the three targets 16.2 (end abuse, exploitation, trafficking and all forms of violence against and torture of children), 16.3 (promoting rule of law/equal access to justice); 16.5 (reducing corruption and bribery); 16.6 (develop effective, accountable and transparent institutions at all level); 16.9 (providing legal identity for all, including birth registration) and 16.10 (ensuring public access to information and protection of fundamental freedoms).
SDG 17 - Partnerships for the Goals	
1	Goal 17 is very comprehensive and aims to strengthen the means of implementation and revitalize global partnership for sustainable development. The 19 targets relate to finance, technology, capacity building, trade, policy and institutional coherence; multi-stakeholder partnership; data monitoring and accountability. The emphasis of all these targets is increasing flow of resources and knowledge from developed to developing countries and within developing countries.

5. MIZORAM ECONOMY

The State of Mizoram is popularly known as the songbird of India and is one of the smallest states in the country. The name Mizoram signifies the land of the Lushai highlanders. It is located in the southern corner of Northeast India nestled mainly between Myanmar and Bangladesh, but also shares a part of its boundaries with its neighboring states of Assam, Manipur and Tripura.

The Gross State Domestic Product (GSDP)

Mizoram is among the four high growth States with its economy continuously growing at high rate of more than 8% during 2013 to 2016. These four States are Gujarat,

Jharkhand, Mizoram and Tripura. Gross State Domestic Product (GSDP) at constant (2011-12) prices is expected to attain an amount of Rs. 13,655.34 crore in 2016-17 against the provisional estimates of Rs. 12,487.73 crore for the year 2015-16 showing a growth of about 9.35% over the previous year. The GSDP at constant (2011-12) prices has clocked 12% average annual growth rate during the financial years 2012-13 to 2016-17. The projected growth rate for India as a whole has been placed at 6.75% in 2016-17.

**GSDP at Factor Cost by Economic Activity: Mizoram
(At Current Prices) : Rs in lakh**

Sl. No.	INDUSTRY	2011-2012	2012-2013	2015-2016 (Provisional Estimates)	2016-2017 (Projected Estimates)
1	Agriculture, Forestry & Fishing	1,49,468	1,61,353	4,70,639	5,10,211
2	Mining & Quarrying	5,073	4,009	16,993	18,352
3	Manufacturing	6,578	7,358	8,780	8,894
4	Electricity, Gas & Water Supply, etc.	51,024	61,109	1,72,901	1,94,272
5	Construction	89,328	88,507	1,65,998	1,77,103
6	Trade, Hotels, Transport & Communication	1,08,399	1,35,163	1,74,068	1,84,505
7	Financing, Real Estate, Professional Services, etc.	61,524	66,125	77,263	78,537
8	Public Administration, Defense and Other Services	2,71,614	3,27,691	4,23,515	4,36,547
9	GVA at Constant Basic Prices	7,43,008	8,51,315	15,10,157	16,08,421
10	GDP at Constant Market Prices	7,25,869	8,36,193	15,33,925	16,33,414

Per capita income

The Per Capita Income of Mizoram for the year 2016-17 is projected at Rs.1,25,107 as against the previous year's estimate of Rs. 1,14,524. The National Per Capita Income for the year 2016-17 is projected at Rs 1,03,219, and 2015-16 is estimated at Rs. 94,130. The State continues to achieve a phenomenal success by attaining Per Capita Income above the National average.

Per Capita Income (in Rs.)

Year	Mizoram	All India
2011-12	57,654	63,462
2012-13	65,013	70,983
2013-14	77,584	79,118
2014-15	1,03,049	86,647
2015-16 (P)	1,14,524	94,130
2016-17 (Pr)	1,25,107	1,03,219

P= Provisional Estimate, Pr= Projected Estimate

Gross State Value Added (GSVA)

The Gross Value Added (GVA) at constant basic prices is expected to grow at the rate of 6.1 per cent in 2017-18 as compared to 6.6 per cent in 2016-17. Similarly, agriculture, industry and services sectors are expected to grow at the rate of 2.1 per cent, 4.4 per cent, and 8.3 per cent respectively in 2017-18.

Sectoral Share to GSVA (2016-2017) Projected Figure

Sl. No.	Sector	Percentage share to GSVA
1	Agriculture (Crop Husbandry)	8.82
2	Agriculture (Animal Husbandry)	3.62
3	Forestry & Logging	18.78
4	Fishing & Aquaculture	0.51
5	Mining & Quarrying	1.14
6	Manufacturing	0.55
7	Construction	11.01
8	Electricity, Gas, Water Supply & Other Utility Services	12.14
9	Transport, Storage, Communication & Services Related to Broadcasting	3.84
10	Trade, Repair, Hotels and Restaurants	7.63
11	Financial services	1.44
12	Real estate, Ownership of Dwelling & Professional Services	3.44
13	Public Administration	14.73
14	Other Services	12.41

Agriculture & Allied Sector:

The Primary Sector comprising agriculture & allied activities contributed 31.72% (2016-17) to the GSVA. With more than half of our population deriving the greater part of their income from agriculture, faster growth in agriculture is necessary to provide boost to their income. Rising incomes in agriculture will also be an impetus to non-agricultural income in rural areas thus helping redress the rural-urban imbalance. Recently horticulture and floriculture has gained momentum and shown marked improvement in their production.

Industry Sector:

The Industry Sector which comprises of (i) Mining & Quarrying, (ii) Manufacturing, (iii) Construction and (iv) Electricity, Gas, Water Supply and Other Utility Services contributed Rs.3,98,621/- lakh during 2016-17. Its percentage share to GSVA is being 25%. The main determinants of this sector are being Construction Sector. It alone contributed 11.01% to the GSVA in 2016-17.

Service Sector (Tertiary Sector):

The Service Sector comprising (i) Transport, Storage, Communication & Services Related to Broadcasting, (ii) Trade, Hotels & Restaurants, (iii) Finance Services, (iv) Real Estate, Other Professional Services etc, (v) Public Administration and (vi) Other Services continues to have the highest contribution to the GSVA, its share has been hovering around 53% during the past 6 years.

There has been significant increase in the percentage share of Agriculture & Allied Sector. The Economy has witnessed sharp increase in the share of Agricultural and Allied Sector from 17.66% at constant (2011-12) price in 2013-14 to 27.84% at constant (2011-13) price in 2015-16, and it is projected at 26.28% in 2016-17.

Human Development Index

Human Development Indicators of Mizoram has been relatively higher than other NE States and also all India Average.

HUMAN DEVELOPMENT INDICATORS	
LITERACY RATE (2011 CENSUS):	<ul style="list-style-type: none"> India 74% North Eastern States 79.3 % Mizoram 91.6 %
PER-CAPITA INCOME (in Rs) 2015-16:	<ul style="list-style-type: none"> India Rs 94130 North Eastern States Rs 101631.6 Mizoram Rs 114524 <small>Source: Economic Survey 2017-18, Ministry of Finance, Govt. of India</small>
URBAN POPULATION (2011 CENSUS):	<ul style="list-style-type: none"> India 31.2% North Eastern States 18.3 % Mizoram 51.5 %
FEMALE LABOUR FORCE PARTICIPATION RATE:	<ul style="list-style-type: none"> J&K 10.5% UP 11.2% PUNJAB 11.1% MIZORAM 54% CHATTISHGARH 54.3% <small>Source: Labour Bureau, GOI</small>

Literacy Index

As per the Census 2011 results, the literacy rate of the State is 91.33% which is the 3rd highest in the country. Among the 8 (eight) districts, Serchhip district recorded the highest literacy rate of 97.91% while Lawngtlai district recorded the lowest at 65.88%. The male and female literacy rates for the State are 93.35% and 86.72% respectively showing a slight increase in the male-female literacy gap i.e. 6.63% in 2011 while it was 3.97% in 2001.

6. DASHBOARD FOR IMPLEMENTATION OF SDGs IN MIZORAM

End poverty in all its forms everywhere

Baseline information (2015-16):

- Percentage of households living BPL is 19.63 as per baseline Survey 2016.
- MGNREGA had already covered 100 % eligible households.
- No. of population covered under PMJJBY is 34,503.
- State has substantial coverage of poor and vulnerable household in the social protection. Schemes like NRLM, PMKSY, NERLP, etc.
- 78.43% of the eligible households are covered by PMAY(R).
- Mizoram is 14th ODF State.
- Limited coverage in National Pension Scheme.

Targets

Percentage of BPL Households

2019-20	:	14
2024-25	:	9
2029-30	:	3

Percentage of AAY

2019-20	:	7.45
2024-25	:	3.65
2029-30	:	1.61

By 2029:

- 100% coverage of poor and vulnerable households under Health Care Scheme, Right to Education and Food Security.
- 100% coverage of rural and urban habitation with drinking water supply.
- 100% coverage of Individual Household Latrines within the State.
- To build resilience of the poor and those in vulnerable situations and reduce their economic, social and environmental shocks and disasters.

Strategy:

1. Government of Mizoram is being implementing Central Sponsored Schemes like NRLM, NULM, and NERLP for poverty eradication by strengthening Self Help Groups.
2. Effective implementation of Central and State sponsored schemes such as MGNREGA, National Social Assistance Programme, Skill Development Mission, PMAY,SBM,etc.
3. Government of Mizoram's unique initiative policies like NLUP for Village farmers' self-sufficiency and State flagship programme for transforming Mizoram into market based economy.

End Hunger, Achieve Food Security and Improved Nutrition and Promote Sustainable Agriculture

Baseline information (2015-16):

- Child malnutrition in Mizoram: 28 % stunted, 2.30 % wasted and 6.10 % underweight.
- In 2016-17 96.75% of villages are being covered by Anganwadi Services.
- Supplementary Nutrition has been given to a large number of children, pregnant and lactating mothers.
- 53.49% of Targeted Public Distribution System in Mizoram is still Priority Household.
- Yield per hectare of Rice is 1.67mt while that of Maize is 1.75mt
- No of Farmers availing crops loans 12,929.
- No. of Soil Heath Card tested 7,666,
- Total cultivable command area under PMKSY is 18,228 ha.
- Potential irrigation area created under PMKSY is 37,708 ha.
- Potential area developed under PMKSY is 12,438 ha.

Targets

Percentage of PHH

2019-20	:	4.75
2024-25	:	3.16
2029-30	:	1.97

Percentage of Stunted, wasted, underweight children under age 5 Years

Years	Stunted	Wasted	Underweight
2019-20	: 13	2	4.50
2024-25	: 10	1	3.66
2029-30	: <10	<1	<2.5

By 2029

- Nutrition for all who are in the age group of 0-6.
- Nutrition for all pregnant and lactating mothers.
- 100% coverage of poor and vulnerable Women under food security.
- Increase agricultural productivity through better irrigation and technology.

Strategy:

1. Strengthening implementation of central sponsored schemes like ICDS, National Nutrition Mission, National Health Mission and others health programme.
2. Improving agricultural production and productivity by implementing RKVY, Soil Health Card schemes and others State flagship programme.
3. Strengthening financial access for agricultural loans and easy access to credit system for farmers.

Ensure healthy lives and promote well being for all at all ages

Baseline information (2015-16):

- Maternal mortality ratio 88, Under Five Mortality Rate 46, Neo Natal Mortality Rate 9.13.
- In 2016-17, percentage of pregnant women vaccinated is 87.
- Percentage of pregnant women getting cash incentive under MSY is 0.98 as per 2016-17.Record.
- Percentage of Children fully Immunized 48.30.
- BPL families covered under RSBY 72%.
- Incidence of Malaria per 1,000 populations 22.8.
- No. of registered practitioners of physicians 356 with 100% ART coverage.

Target

Maternal Mortality Ratio

(Per lakh pregnant Women)

2019-20	:	80
2024-25	:	75
2029-30	:	70

Child Mortality Rate

(Under age 5 Years)

(Per thousand lives birth)

2019-20	:	45
2024-25	:	35
2029-30	:	20

Neo Natal Mortality Rate (Per Thousand)

2019-20	:	8
2024-25	:	7
2029-30	:	6

Annual Malaria Death (Per Lakh)

2019-20	:	10
2024-25	:	5
2029-30	:	1

By 2029

- To reduce Maternal Mortality and Child Mortality.
- To reduce HIV/AIDS.
- To reduce malaria related death.
- To strengthen health facilities in the State.
- 100% coverage of BPL under RSBY.

Strategy

1. Re-structuring of primary health care by remodeling PHCs, CHCs, UHCs, DHs and strengthening of health workers under the National Health Mission and State flagship programme.
2. Strengthening implementation of Health care schemes such as RSBY, ICDS, National AIDS Control Programme, National Vector Borne Disease Control Programme, Routine Immunization Programme, etc.
3. To end all preventable maternal death and infant death as one of the commitments of Government of Mizoram and improving reach of health facilities to everyone in the State.

Ensure Inclusive and equitable quality education and promote lifelong learning opportunity for all

Baseline information:

- In 2016-17 net enrollment ratio in both primary and upper primary is 88.6 each.
- Teacher-pupil ratio in Primary school is 1: 18 and that of upper primary school is 1: 09.
- More than 75% of Children in Primary School and 66% in Upper Primary School are covered under Mid-Day Meal Program.
- Average annual drop-out rate is 17.7.
- Child Sex Ratio (0-6 years) in 2016-17 is 970.
- Trained teacher-pupil ratio is 1:12.

Targets

Net Enrollment Ratio in Primary & Upper Primary School

2019-20	:	90
2024-25	:	95
2029-30	:	100

Average Annual Drop-Out Rate

2019-20	:	12.3
2024-25	:	7.7
2029-30	:	1.7

Child Sex Ratio

2019-20	:	980
2024-25	:	990
2029-30	:	1000

Teacher Pupil Ratio

Years	Primary	Upper Primary
2019- 20:	1:19	1:10
2024- 25:	1:20	1:12
2029- 30:	1:21	1:15

By 2029

- Below 5% dropout rate at primary level, upper primary level and Secondary level.
- 100% professionally trained teachers and increase trained teacher pupil ratio to 1:20
- 100% coverage of poor and vulnerable under Right to Education.

Strategy

1. Enforcement of Right to Education act 2009 along with National Education Mission.
2. Strengthening of existing government programmers such as Beti Bachao Beti Padhao, SSA, RMSA, RUSA, pre and post-matric scholarship, etc.
3. School Heads Assessment, Reform and Evaluation (SHARE) toolkit for development of education system in the State.

Baseline information (2016-17):

- 44.34% of the crime victims were rehabilitated
- 115 cases of domestic violence.
- No. of Women helpline existing is 2 Nos.
- Rate of crime against women is 21.22 per 1,00,000 populations.
- 30.56% of Government Employees are women in 2013-14.
- 32% of non-agricultural proprietary establishment are owned and controlled by women in 2012-13.
- Women work participation Rate is 540 per 1000 population as per 2015-16 record.
- Reservation of seats at election of Legislative Assembly, Municipality and Village/ Local Council.

Targets

Victims Rehabilitated

2019-20	:	80 %
2024-25	:	90 %
2029-30	:	100 %

No. of Domestic Violence

2019-20	:	80
2024-25	:	60
2029-30	:	20

Rate of Crime against Women (Rate of case per lakh of Population)

2019-20	:	18
2024-25	:	12
2029-30	:	5

No. of Women Helpline

2019-20	:	4
2024-25	:	6
2029-30	:	8

By 2029

- To reduce crime against women.
- To continue reservation of women seats at Municipal and Local/ Village Council election.
- To encourage ownership of land/ property in the name of Women.
- To setup Women Helpline in all Districts.

Strategy

1. Mission for Protection and Empowerment of Women for gender balance and women Empowerment.
2. Creating employment opportunity for women through Skill Development Mission.
3. Effective Implementation of National Schemes such as Beti Bachao Beti Padhao,

6 CLEAN WATER AND SANITATION

Ensure availability and sustainable management of water and sanitation for all

Baseline information (2015-16):

- 69.56 % of urban habitations are covered with drinking water supply.
- Only 24% of rural habitations are covered with drinking water supply.
- 30% of households in rural areas are covered by IHHL.
- 100% Open Defecation free in rural areas and 91% of towns were declared ODF.

Targets

Rural Drinking Water Supply

2019-20	:	40
2024-25	:	80
2029-30	:	100

By 2029

- 100% habitations connected with safe drinking water supply.
- 100% coverage of sanitary toilet facility.

Strategy

1. To ensure universal and safe drinking water and proper sanitation facilities for all through State initiative programme.
2. Improving water supply quality and lengthening water supply duration by implementing and strengthening the project undertaken by SIPMIU.
3. Effective Implementation of National Schemes such Nation Rural Drinking Water Programme and National Urban Drinking Water Programme, Swachh Bharat Mission, PMAY(R&U), etc.

Baseline Information

- 80% of villages are electrified and 94.69% of BPL households are already electrified.
- 100% beneficiaries are given LPG subsidy under PAHAL.
- 2940 kWp solar energy has been installed in the State.
- 14.19% of total energy mix is the share of renewable energy.

Targets

LPG Connection to Women Headed BPL Household

2019-20	:	10 %
2024-25	:	55%
2029-30	:	100%

Share of Renewable Energy in Total Energy Mix

2019-20	:	22
2024-25	:	31
2029-30	:	40

Solar Energy Install

2019-20	:	94,500 kWp
2024-25	:	39,450 kWp
2029-30	:	2,000 kWp

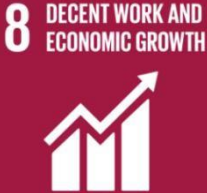

By 2029

- Electricity access for all household.
- To promote solar and renewable energy.

Strategy

1. Strengthening and effective implementation of Deen Dayal Upadhyaya Gram Jyoti Yojana, and Nation Solar Mission, Green Energy Corridor, ZEDA project etc. to ensure uninterrupted power and reliable 24X7 power supply for households and industry.
2. Dedicated Land for Power Projects and infrastructure to develop renewable energy infrastructure.
3. Implementation of various hydro-electric projects which are being in processed.

8 DECENT WORK AND ECONOMIC GROWTH

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

Baseline information (as per 2015-16):

- Per Capita Net State Domestic Product is Rs 1, 14,524.
- Economic Growth rate (i.e. GSDP) was 11% in the last declared.
- The total number of registered MSME unit is 174.
- No. of employment generated under PMEGP is 38.
- Total number of beneficiaries trained under Mizoram Building and Other Construction Welfare Board is 1,500.
- Unemployment rate is 30 per 1000 populations of aged 15 and above.

- Total number of accounts opened under Prime Minister Jan Dhan Yojana (PMJDY) is 1, 13,883 and total number of accounts holders is 8, 57,015.
- Total number of ST Beneficiaries under the Scheme National SC/ST Hub is 174.
- Number of ATMs per 1, 00,000 population installed is 14.
- Credit- Deposits Ratio under PMJDY in Mizoram is 44.

Targets

Registered MSME:

2019-20	:	370 nos.
2024-25	:	600 nos.
2029-30	:	860 nos.

Employment to be generated Under PMEGP:

2019-20	:	250
2024-25	:	460
2029-30	:	700

Targeted Beneficiaries to be trained under Mizoram Building & Other Construction Welfare.

2019-20	:	2,000
2024-25	:	2,500
2029-30	:	3,000

Number of accounts opened:

2019-20	:	2,000
2024-25	:	2,500
2029-30	:	3,000

Number of accounts holder:

2019-20	:	9, 58,000
2024-25	:	9, 75,000
2029-30	:	10, 00,000

No. of ATMs per 1, 00,000 populations:

2019-20	:	18
2024-25	:	22
2029-30	:	25

Credit- Deposits ratio:

2019-20	:	45
2024-25	:	48
2029-30	:	50

By 2029:

- To generate employment for all in the working age group.
- To provide skills and entrepreneurship development targeting the working age group.
- To improve financial access/ financial inclusion.

Strategy:

1. State will ensure increasing number of registered MSME Unit under Make in India through State flagship programme.
2. Increasing number of employment generated under PMEGP through State flagship programme and Mizoram Youth Commission.
3. Increasing total number of Start- Up registered and number of start- Up funded under Start- up India through State Entrepreneurship Development Scheme.
4. Increasing number of accounts holders and accounts opening under PMJD.

Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

Baseline information (2015-16):

- 88.07% of villages are connected by all-weather roads.
- The length of National Highways and State Highways constructed under NHDP/Bharatmala was 1,465.12 km and 170 km respectively.

- The length of District Roads, Village roads and Towns roads constructed under NHDP/Bharatmala was 1,579.70 km, 1,910.64 km and 704.91 km respectively.
- Density of roads constructed under NHDP/Bharatmala is 36.20 sq.km.
- Number of patents filed/IPR's issued under Start-Ups Intellectual Property Protection (SIPP) was 9 nos.
- Annual growth rate of manufacturing sector is 4.52%.
- Number of villages covered under Bharat Net is 95.
- Number of mobile connection per 100 populations in Rural and Urban area is 93.
- Number of internet connection 12,746.

Targets

All weather Road under PMGSY

2019-20	:	630 km
2024-25	:	640 km
2029-30	:	650 km

National Highway under NHDP/Bharatmala

2019-20	:	1,475 km
2024-25	:	1,485 km
2029-30	:	1,490 km

State Highway under NHDP/Bharatmala

2019-20	:	180 km
2024-25	:	190 km
2029-30	:	200 km

District Roads:

2019-20	:	1,585.00 km
2024-25	:	1,590.00 km
2029-30	:	1,600.00 km

Villages Roads:

2019-20	:	1,920.00 km
2024-25	:	1,930.00 km
2029-30	:	1,940.00 km

Towns Roads:

2019-20	:	704.91 km
2024-25	:	720 km
2029-30	:	730 km

By 2029

- To promote connectivity by providing all weather roads to all City, Towns and Industrial Centre's.
- To improve digital connectivity.
- To establish Innovation facility Centre/ Innovation Hub.

Strategy:

1. Funding agency such as World Bank and NEC's for improving and constructing Roads and Infrastructure by monitoring and evaluation.
2. Effective and efficient utilization of Central Scheme i.e., Digital India and improving existing ICT and Science and Technology department.
3. Promotion Entrepreneurship Development Scheme to increase Start-up beneficiaries under Start-up India.
4. Centrally Sponsored Programme implemented by Government of Mizoram BADP.

Reduce inequality within and among Countries

Baseline information (as per 2011-12)

As per Economics & Statistics report 2011-12, monthly per Capita Expenditure in Rural areas is 1,331.61 rupees and monthly expenditure in urban areas is 2,267.58 rupees based on 2011-12.

Targets

By 2029:

- To sustain high growth in the State.
- To promote social inclusion.
- To achieve shared prosperity.

Strategy:

1. Reduce economic inequality through investment in agriculture, trade, commerce and industry under State flagship programme.
2. Creating business environment and expanding existing markets.
3. Raising the income at the bottom through labour market reforms.
4. Implementation of State flagship programme and National mission like, Skill Mission, Make in India, Start up India to Increase in the employment opportunities.

*Make Cities and Human Settlements
Inclusive, safe, resilient and sustainable*

Baseline information:

- 29,334 households has already been constructed for Economically Weaker Sections under PMAY(U) in 2017-18
- 1 city has been covered under Atal Mission for Rejuvenation and Urban Transformation (AMRUT).
- Total length of pedestrians Footpath constructed in 2016-17 was 3,364.30 meters.
- Total investment/allocation in the Smart City Mission was 2 crore and that of total expenditure was the same as total investment based on 2015-16 records.
- Based on 2015-16, percentage of door to door waste collection in Towns and Cities under SBM was 76% respectively.

Targets:

By 2029

- Achieve 100% door to door waste Collection in Towns and Cities.
- 100% municipal solid waste treatment
- Effective implementation of NMT to improve pedestrian/ urban mobility.

Strategy:

1. Achieve housing for all.
2. To implement scientific solid waste management in Cities/ Towns.
3. To improve urban mobility.

Ensure sustainable consumption and production patterns

Baseline information:

- Total number of cities with waste management and sewage treatment plant is 1 No.
- State lacks in efficient use of natural resources because of lack of factories and Industries.
- No food processing unit in the State which incurs post harvest losses annually.

Targets:

Food Processing Unit (FPO).

2019-20	:	5 nos
2024-25	:	7 nos
2029-30	:	10 nos

By 2029:

- Increase number of Food Processing Units (FPO) to 10 units under National Mission on Food Processing (SAMPADA).
- To ensure at least one additional city with proper waste management and sewage treatment plant.
- To ensure segregation of waste at source.

Strategy:

1. Increase total number of cities with waste management and sewage treatment plants through AMC.
2. Promotion of food processing and value chain in the State.
3. Plantation and conservation of forest, sustainable management and efficient use of natural resources.

Baseline information:

- As on 2015-16 data, effective carbon trading in various forms under National Action Plan on Climate Change was 95.04 Millions tones.
- Lack in integrating climate change measures into state policies, strategy and planning.

Targets

Effective Carbon Trading under National Action Plan on Climate Change (NAPCC).

2019-20	:	118.80 mt
2024-25	:	142.56 mt
2029-30	:	164.57 mt

By 2029:

- Improve effective carbon trading in different aspects under National Action Plan on Climate Change (NAPCC).
- Preservation of water sources/ water table in the State.
- Sanitation to reduce plastic waste.

Strategy:

1. Increasing forest coverage.
2. Strengthening of State Action Plan for Climate Change in the State.
3. Strengthen State Energy Conservation Mission (SECM) to promote energy efficiency in different sectors.
4. Encourage, develop and promote renewable energy in the State.
5. Improving National Mission for Green India, National Water Mission for energy.

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, halt and reverse land degradation and halt biodiversity loss

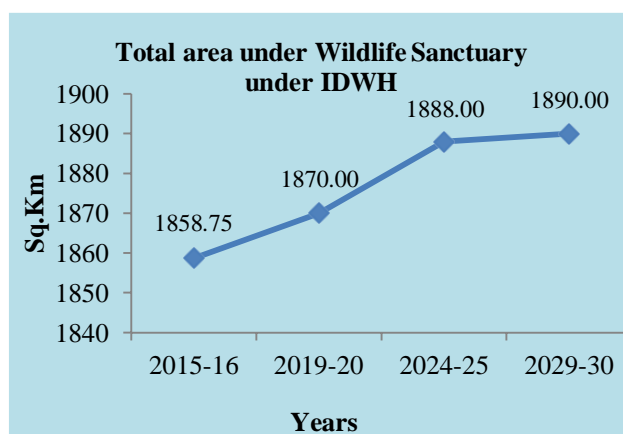

Baseline information (2015-16):

- 8.8% of total area (i.e. 1,858.75 sq.km) is Wildlife Sanctuary
- 86.2% of total area (i.e. 18,186.00 sq.km) is covered by Forest
- Total tree covered outside forest area (TOF) is 467.00 sq.km
- Increased tree/forest covered in degraded area under National Mission for Green India is 31.35 sq.km
- Percentage of net sown area is 10.37

Targets

Wildlife Sanctuary under Integrated Development of Wildlife Habitats (IDWH)

2019-20	:	1,870.00 Sq.km
2024-25	:	1,888.00 Sq.km
2029-30	:	1,890.00 Sq.km

Area under Forest Covered under Conservation of Natural Resources and Ecosystem (CNRE)

2019-20	:	18,296.00 sq.km
2024-25	:	18,396.00 sq.km
2029-30	:	18,500.00 sq.km

Tree covered outside forest area (TOF)

2019-20	:	517.00 Sq.km
2024-25	:	567.00 Sq.km
2029-30	:	617.00 Sq.km

Tree/Forest covered in degraded area under National Mission for Green India (NMGI)

2019-20	:	56.35 Sq.km
2024-25	:	81.35 Sq.km
2029-30	:	106.35 Sq.km

Total percentage of Net Sown area

2019-20	:	15.00 sq.km
2024-25	:	17.00 sq.km
2029-30	:	18.00 sq.km

By 2029:

- Protect area under Forest Cover.
- Increase net sown area.

Strategy:

1. Green cover surveillance and geo tag to monitor plant species.
2. Strengthening of National Mission for a Green India, Integrated Development of Wildlife Habitats, Conservation of Natural Resources and Ecosystem to improve in green cover.
3. Shifting or changing livelihood from agricultural activity through State flagship programme.
4. Sustainable management of forests, combat desertification, halt and reverse land degradation and halt biodiversity loss.
5. Strengthening of State Action Plan for Climate Change in the State.

Promote Peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

Baseline information:

- No. of registered Digi- Locker users under ICT as on 2017-18 is 753.
- No. of online services provided by the State Government under ICT as on 2017-18 is 82.
- No. of children rehabilitated under ICPS was 75.97% as on 2016-17.
- Percentage of birth registration covered as on 2015-16 was 98%.
- As per Crime Statistics, Mizoram 2015-16, crime rate/ crime related death per 1 lakh population was 235.10.

- As per Crime Statistics, Mizoram 2015-16, number of crime rate against children was 160 cases.
- 53.86% of populations are enrolled under Adhaar.

Targets

Children rehabilitated under ICPS.

2019-20	:	85%
2024-25	:	95%
2029-30	:	100%

Birth registration coverage.

2019-20	:	98.50%
2024-25	:	99%
2029-30	:	100%

By 2029:

- 100% increase in number of children rehabilitated under ICPS-1972.
- Significantly reduce all forms of violence, exploitation, abuse and trafficking of Children.
- Provide legal identity for all, including birth certificate and address to all and ensure 100% coverage of birth registration.
- Increase online services provided by State Government to at least 34% from current coverage.
- Enroll 100% of population under Adhaar.
- To establish Treasury computerization through IFMIS.

Strategy:

1. State will integrate reform and strengthen the existing regulatory and policy framework to promote peaceful and inclusive societies for sustainable development
2. Strengthening of state e-governance policy, services and ensuring public access to information.
3. Strengthening of concerned departments to satisfactorily achieve the target.

SCHEMATIC INDICATORS & TARGET FOR SUSTAINABLE DEVELOPMENT GOALS 2030 (MIZORAM)

Sl. No.	Goals	Target	Priority Indicator	Data Source #	Intervention/Schemes	Department	Schematic Indicators	Baseline Data (Preferably 2015-2016)		Target			
								Reference Period	Data Report	2019-2020	2024-2025	2029-2030	
		SDG 1 : No Poverty											
1	SDG 1 : No Poverty	1.1 : By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than \$1.25 a day	1.1.1 : Proportion of population living below the poverty line	BPL Survey	NRLM/PMKSY/NERLP	RD/RD Sectt.	%age of HH covered under SHG	2011	49557	90.00%	100.00%	100.00%

7. SECTORAL STRATEGY FOR IMPLEMENTATION

7.1 The State Government has formulated the State flagship programme as a long term framework for economic policy and a comprehensive growth strategy for the State economy. The policy combines growth strategies across various sectors into a coherent package for development, decent work and inclusive growth. They bring together the priorities that constitute the basic economic focus to forge ahead to promote a more inclusive and stronger economy.

7.2 *Identification of key growth sectors / key growth drivers:* The process of economic growth as well as the major macro-economic policies depends largely on the key growth sectors or high linkage sectors in the economy. The interlinkages of sectors are particularly important as policy impetus for the growth of a high linked sector can automatically impact the interlinked sectors through both forward and backward linkages and can improve the growth prospectus manifolds. Identifying the sectoral linkages is an essential pre-requisite for the policy makers in order to formulate appropriate policies for boosting the key high linked sectors, as these in turn propel the growth in other sectors.

7.3 Key sectors are those which influence the economy in a significant manner, i.e., which have the capacity to stimulate the growth of other sectors either through providing their own output to other sectors (Forward linkage), or through taking inputs from other sectors (Backward linkage). Identification of forward and backward linkages is also essential as one can then identify which are the sectors that are going to benefit through linkage effect and in what way. It is imperative, that the Government needs to focus on devising appropriate policies based on the requirements of these key sectors besides encouraging investments in these sectors which, in turn, will ensure a long run sustainable growth of the overall economy.

7.4 Based on the forward & backward linkages and other economic considerations including favorable agro-climatic condition (factor endowment) and structural changes in the economy, the following sectors are identified as potential key growth drivers of the State economy:

a *Agricultural & Allied Sector* : Rice, Vegetables (annual crops with high and consistent demand in local, national and international markets - onion, spices, squash etc.), Fruits (high value fruits with high and consistent demand in local, national and international markets - banana, orange, grape, passion fruits etc.), Floriculture (high value flowers with high and consistent demand in local, national and international markets - Anthurium, orchid etc.), Animal Husbandry, Dairy, Fishery (with high and consistent demand in local market).

b *Industry-Manufacturing Sector:* Forest Based Industries (bamboo), Handloom, Handicrafts, Agro Based Food Processing.

c *Infrastructure Development:* Roads, Energy, Water Supply, ICT, Sanitation & Sewerage.

d *Service Sector:* Tourism & Hospitality, Sports & Recreation, Education, Health Care, ICT, Transport Services.

7.5 The above identified potential key growth drivers of the State economy would be prioritized in proper sequence that would provide maximum linkages in the economy for propelling and fuelling economic growth and development in the State in the long run.

7.6 *Strategy for Reviving Agriculture and Allied Sector:* The importance of agriculture in economic development is borne out by the fact that it is the primary sector of the economy, which provides the basic ingredients necessary for the existence of mankind and also provides most of the raw materials which, when transformed into finished products, serve as basic necessities of the human race. In Mizoram, Agriculture and Allied Sector provides not only food and raw materials but also employment to a very large proportion of the population as majority of the population are still depending on Agriculture and Allied Sector. In other words, growth in agriculture sector improves the incomes of poor household groups substantially, as it is the most pro-poor and rural oriented sector in terms of growth. Moreover, being the dominant sector the improvement or changes in economic conditions of the State Economy depend to a large extent on agriculture.

7.7 The implementation of the New Land Use Policy (NLUP), the State Government's Flagship Programme, has on the one hand weaned away the farmers from the destructive and unprofitable 'Jhum' practices to a more environment friendly and gainful livelihood in the form of small scale/cottage industries and petty trades, and on the other initiated the transition from subsistence oriented agriculture to a more market oriented one in earnestness. The marginal farmers who have been barely eking out a living on subsistence agriculture have witnessed a rise in their standard of living by adopting market oriented agriculture, which is heartening. Third party analysis of the success or otherwise of the NLUP is being undertaken by NABCONS/ NABARD, Synod Social Front and Mizoram University separately. The preliminary findings of MZU have revealed that there has been a significant growth in the Agriculture & Allied Sector as well as the Industries Sector. As it is the mandate of the Government to heed the welfare and upliftment of the poor, the State Government would continue its efforts to progressing to a sustainable market economy.

7.8

The overall agricultural sector goal is to increase productivity and growth rate of at least 2 percent per year over the next 5 years to a longer period. Therefore, the overall development and growth of the sector is anchored in the following three strategic thrusts: (i) Increasing productivity, market oriented production and competitiveness of the agricultural commodities and enterprises; (ii) Developing and managing key factors of production with appropriate use of modern technology and; (iii) Improving market infrastructure and market access of agriculture produce.

7.9

Strategy for Developing Industry/ Manufacturing Sector: The Perspective plan for developing industry sector seeks maximum utilization of Mizoram's natural endowments in forest based products particularly bamboo. As such, promoting forest / bamboo based industry and manufacturing activities would definitely provide comparative advantage in the State. In order to attain economies of scale and both domestic and international competitiveness the Government plans to take up cluster based approach in a more comprehensive way in the production and utilization of forest products. The overall Industry-Manufacturing sector goal is to increase growth rate of at least 3-4 percent per year over the next 5 years to a longer period. Therefore, the overall development and growth of the sector is anchored in the following two strategic thrusts: (i) To take advantage of endowments in the State and opportunities presented by modern technology; (ii) Implementing a series of reinforcing policies to address the business, labour, and financial challenges that create obstacles for doing business particularly manufacturing activities in the State.

7.10

Strategy for Infrastructure Development: Infrastructure is essential for sustained economic growth, competitiveness and social progress. The success or otherwise of economic development process depends largely on the available resources and an enabling environment. Resources such as capital, manpower and technology are necessary inputs in the growth process. However, the efficiency of these inputs and the sources of economic growth largely depend on the available enabling environment as defined in part by the available infrastructure. Despite laudable efforts of the State Government, Mizoram remains consistently behind the country averages in most infrastructure index. As such infrastructure development remains development priority of the State Government. The Strategy envisages mechanisms to encourage private sector participation in all aspect of infrastructure developments such as power plants, roads, bridges, social housing, and industrial estates on reasonable terms. However, the private sector at the moment is reluctant to invest in the State. These constraints have to be overcome through appropriate policy and technology intervention so that the vision and aspiration of the people of Mizoram is fulfilled.

7.11

To bridge the infrastructural gap, most governments emphasize constructing new assets, but this strategy is not a “silver-bullet” solution; after all, public-budget constraints exist, as do multiple difficulties in getting projects from idea to implementation in a reasonable time frame. A complementary and potentially more cost-effective approach is to improve the utilization, efficiency and longevity of the existing infrastructure stock – in short, to make the most of existing assets by means of optimal Operation & Maintenance (O&M). However, in reality, many Governments neglect their existing assets, and current O&M practices are often seriously deficient. In operations, they fail to maximize asset utilization and to meet adequate user quality standards, while incurring needlessly high costs as well as environmental and social externalities. Maintenance is all too often neglected, since political bias is often towards funding new assets.

7.12

Similarly, resilience to natural disasters tends to be ignored, although such hazards are becoming more common and more destructive because of climate change. As a result of the maintenance backlog and the lack of resilience measures, existing assets deteriorate much faster than necessary, shortening their useful life. A proper solution will require a step change in infrastructure asset management. The case in point, in the case of Mizoram, would be electricity and roads. Mizoram has been consistently recording high transmission and distribution losses in terms of power and electricity, indicating huge room for improvement in operation and maintenance. Similarly, roads density in Mizoram has been above national average in terms of National and State highways with lot of scope for improvement in roads operation and maintenance. To make high-performance O&M sustainable, policy-makers need to consider the three enablement strategies: (i) Ensuring stable and sufficient funding; (ii) Building institutional and individual capabilities and; (iii) Reforming governance.

7.13

The overall Infrastructure Development strategy is anchored in the following two strategic thrusts: (i) To maximize asset utilization. Given the challenge of congestion and public financial constraints (and sometimes space constraints) on building new assets, Governments should aim to maximize the utilization of their existing assets; and (ii) To develop a well-designed O&M strategies and policies, in conjunction with policies to improve the earlier phases of infrastructure projects (planning, preparation, procurement and construction).

7.14

Strategy for Sustaining Services Sector led Growth: In Mizoram, the services sector now accounts for about 57 per cent of the State gross domestic product. In order to sustain services sector led growth, State Government will have to address several interlinked issues: (i) infrastructure facilities are poor and cost of service deliveries is high – infrastructure development remain an important challenge; (ii) given the ever evolving nature of national and domestic economies, the strategy for

strengthening the services sector demands new responses from policy makers. The first step is to undertake a detailed assessment of existing policies and regulations affecting the services sector, then identify the current gaps to gain an appropriate understanding of how to better support services sector growth; and (iii) although Mizoram has high literacy rate, there is no uniformity in the quality and standard of education and formal education does not guarantee employability. Appropriate policy and reform measures that will enable the services sector to not only to grow at a fast pace but also create quality employment and attract investment is needed. It is important for a Mizoram with a large and young population to generate quality employment through appropriate skills development policy and move up the value chain to reap demographic dividend. If appropriate reforms are implemented and credible policy is in place, it will not only enhance the productivity and efficiency of the services sector but will also lead to overall growth of the economy through backward and forward linkages, and it will enhance the State's competitiveness.

7.15

The strategy for the services sector, therefore, include the following two major issues: (i) Assessment of existing policies and regulations affecting the services sector to identifying the burdensome regulations and reforming them; (ii) Since different services differ in nature, the issues are varied that involve different institutions, and Departments and the policy responses will also differ. An appropriate State Level Regulatory Authority to facilitate growth and ease in doing business would need to be instituted to coordinate all regulatory issues in the services sector. This would involve coordinated strategy and policy making for which a single nodal Department/ Division/ Institution for services is needed. It calls for not only hard and systematic work but also some unconventional decision making at the highest level.

7.16

Strategy for Reforms in Public Administration: The Government intends to actively pursue Reforms in Public Administration which will include the *rightsizing* of government departments, adoption of *meritocracy* for appointment of public servants, *outsourcing* of work wherever viable, etc. among others. To bring about these reforms '*Administrative Reform Committee*' has been set up with a mandate to bring about any necessary reforms for a Government that can satisfy the aspirations of its people.

7.17

Public Financial Management Reform: The Government also places great importance to Public Financial Management. Some of the more important points of Fiscal Management Policy that are stated in the State flagship programme for as follows:

- (a) Better 'Fiscal Discipline' and 'Expenditure Reforms' for prudent utilization of financial resources.
- (b) Proper 'Allocation Framework' and 'Procurement Policy' for efficient allocation of budget resources in accordance with established Government priorities defined in development plan documents and development policy.

- (c) ‘Fiscal Consolidation’ and ‘Resource Mobilization’ for improving the financial condition of the State.
- (d) Establishment of ‘Commercial Account’ for better operability of Departments with a revenue stream.
- (e) A ‘Public Debt Policy Framework’ for judicious management of the State’s public debt.
- (f) ‘Capacity Building’ for government servants so that Fiscal Management Policy may be executed effectively.

7.18

Skills Development: Roughly about 30 per cent of the State’s population is between 0 and 14 years old, and more than 64 per cent of the population is in the working age group (i.e. 15-59). The aspirations and achievements of these young people will shape the future of Mizoram. At the same time, fertility rates in many parts of the State are falling. An economy with both increasing numbers of young people and declining fertility has the potential to reap a ‘Demographic dividend’ - a boost in economic productivity that occurs when there are growing numbers of people in the workforce relatives to the number of dependents. In terms of demography, Mizoram is entering its golden age to reap demographic dividend. However, Mizoram is still a skill-deficit state, and the Government will take steps to develop credible Skills Development Policy and implement Education Reform in line with National Skills Qualification Framework in the State. Moreover, since labour demand within the State economy should remain first priority, the identified growth sectors / drivers in this Policy and skill development programme of the Government would be linked. The necessity of coordination among departments dealing with Skill Development or creating a new Skill Development Department that combines all Skill development activities cannot be over-emphasized.

7.19

Climate Change Adaptation and Mitigation Strategy: Agriculture, rural livelihoods, sustainable management of natural resources and food security are inextricably linked within the development and climate change challenges. Climate change pressures will be compounded by a pronounced lack of sufficient knowledge, infrastructure, organization and resources that local populations and Governments would need to cope with and adapt to climate change. The State Government shall initiate vulnerability assessment to work out suitable strategy for adaptation and mitigation of climate change, and to appropriately leverage carbon market.

8. BUDGET ALIGNMENT WITH SDGs IMPLEMENTATION

SDG 1 - No Poverty

Department: Departments with a concentrated focus on SDG 1 include Rural Development Department; Public Health Engineering Department; Urban Development & Poverty Alleviation Department; Social Welfare Department, Food Civil Supplies & Consumer Affairs, Eco & Stats, Lead Banks and Health & Family Welfare Department.

Scheme: Various projects/ Scheme implemented in Mizoram to achieve Goal 1 include; NSAP, NRLM, NULM, MGNREGA, Atal Pension Yojana, PMJJBY, PMAY and National Rural Drinking Water Programme.

Allocated funds: Total amount of 2,235.64 lakh under IGNOAP has been allocated to provide age pension to poor and Physically and Mentally handicapped living below poverty line. To provide sustained income to the rural poor and to enable them to cross poverty line, total amount of 97.58:2.41 lakh between Centre and State has been allocated under MNREGS and NRLM. For provisions of housing and other basic amenities to families below poverty line and economically weaker sections of the society, Three housing projects namely, Chite Lawipu Combine EWS Housing projects (3,045.14 Lakh) and Durtlang EWS Housing Projects (2,623.73 Lakh) are implemented under BSUP. To improve Water supply components to Rural household, 500 lakh have been allocated under State flagship programme and 1,000.00 lakh for Operation and maintenance of water supply under State flagship programme. To develop and promote rural areas, 1,600.00 lakh has been allocated under State flagship programme.

SDG 2 - Zero Hunger

Department: Departments with a concentrated focus on SDG 2 include Food, Civil Supplies, and Consumer Affairs Department (FCS&CA), Agriculture Department, Lead Bank, Information and Public Relations Department, Health and Family Welfare Department, Social Welfare Department and Economics and Statistics Department.

Scheme: Various projects/ Scheme implemented in Mizoram to achieve Goal 2 include; PDS, National Health Mission, ICDS, National Nutrition Mission, Pradhan Mantri Fasal Bima Yojana, PMKSY, Rastriya Krishi Vikas Yojana/ National Food Security Mission and Soil Health Card Scheme.

Allocated funds: To access to food grains at subsidized price and to increase storage capacity of foodstuffs, 17 new Godowns at the cost of 9.60 crore has been allocated and 32.68 crore loans has been secured for the constructions of 27 new Godowns from NABARD. To improve Referral Hospital at Farkawn, 2,000.00 lakh has been allocated under State flagship programme and to improve Health care facilities in all districts Hospitals including provisions of equipments, 2,000.00 lakh have been allocated. Total of 14,218.914 lakh has been allocated under National Health Mission. To provide nutrition and services to children below 6

years, 3,236.51 lakh have been allocated under ICDS. Total of 1,751.50 lakh was also allocated under National Nutrition Mission to children below 6 years. To improve agricultural productivity of wheat and rice, 26.57 crore has been funded from Central Government under RKVY. During 2015-16, 396.00 lakh has been allocated to implement NFSM. The Common Service Centre (CSC) scheme approved by the Government of India is also set up in the State and at present 136 CSC had been set up across the State whereby citizens will be able to get services through online.

9. CONCLUSION

The process of economic growth as well as the major macro-economic policies depends largely on the key growth sectors in the economy. The interlinkages of sectors are particularly important as policy impetus for the growth of a high linked sector can automatically impact the interlinked sectors through both forward and backward linkages and can improve the growth prospectus manifolds.

The State Government is actively taking initiative in obtaining accurate and reliable data, keeping record of infrastructure, amenities, education, health etc. This act as an important catalyst for enhancing public participation thus strengthening ‘Sabka Saath, Sabka Vikas’ or ‘Collective Efforts, Inclusive Growth’. Thus, this increases the overall growth rate in multi-dimensional prospects and different process individually. SDG’s initiatives resulted in major changes in social and institutional areas. SDG ensures removal of poverty and removal of inequality and is gradually erasing all its influence on the State which creates barriers of growth and development within the State and country.

It also ensures inclusive and equitable quality education and promotes life-long learning opportunities for all. SDG helps build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation. SDG strengthens the means of implementation and revitalize the global partnership for sustainable development.

Just as the spirit and vision of Our Constitution is “Justice, Social, Economic and Political”, it is the duty of the Government to ensure a social, economic and political order in which the legal system of the State promotes justice on a basis of equal opportunity and shall, in particular, ensure that opportunities for securing justice are not denied to any citizen by reason of economic or any other disabilities. The Government of Mizoram thereby envisages establishing an efficient public service delivery system and dynamic governance to implement Sustainable Development Goals and to promote shared prosperity in the State.
